Professional Summary

Dedicated problem solver with a strong passion for safeguarding online businesses and a background in software development. Possesses expertise in a wide range of technologies, committed to continuous skill improvement, and staying at the forefront of the industry.

Experience

Software Engineer - Aceworld Inc Abuja

March 2021 - Present

- Developed and maintained scalable and efficient software solutions using languages and frameworks such as Python, JavaScript, Flask and Node.js, resulting in a 20% improvement in application performance and responsiveness.
- Successfully debugged and resolved software defects, leading to a 25% reduction in user-reported issues and enhancing overall system functionality.
- Collaborated with cross-functional teams to design and implement robust and secure RESTful APIs, enhancing the overall functionality of web applications and ensuring seamless integration with external systems.
- Conducted thorough code reviews, identified optimization opportunities, and implemented best practices, resulting in a 15% reduction in post-release issues and an overall improvement in code quality.
- Utilized industry-standard tools such as Git for version control, Jira for project management, and Docker for containerization to streamline development processes, improve team collaboration, and facilitate efficient deployment workflows.

Cyber Security Intern – National Defence College Abuja

February 2022 - August 2022

- Conducted in-depth vulnerability assessments, leading to the identification and resolution of high-priority issues, resulting in a 30% improvement in overall system security.
- Collaborated seamlessly with cross-functional teams to analyze and promptly respond to critical security incidents, reducing incident resolution time by 20%.
- Participated in the configuration and proactive monitoring of advanced security tools and technologies, including SIEMs, XDRs & SOARs, fortifying the organization's cyber defenses against evolving threats.
- Contributed to regular security audits and assessments, ensuring 100% compliance with industry standards and contributing to an enhanced security posture.

Education & Certifications Obtained

- **Bachelor of Technology, Cyber Security Science:** Federal University of Technology Minna
- **UN Cyber Diplomacy Course**
- **IBM Cyber Security Analyst** (Coursera)
- **Google Cyber Security Professional** (Coursera)
- **CISCO - Ethical Hacker**

Skills

Security: Kali Linux, Log analysis, Vulnerability Assessment, SIEMs

Software Development: Python, Flask, Django, HTML & CSS, NodeJS, PHP, MySQL, MongoDB
